

Welcome to Am Zehnhoff-Söns! Your logistic partner with know-how.

Over 100 years ago August am Zehnhoff founded one of the first forwarding agencies in Bonn. Starting in 1907 he offered services such as barge handling, warehousing and conventional truck-transportation, segments which even today are part of the core business of the company. Within the past decades more services have been added and adapted according to market requirements.

Currently the company is led by the 3rd generation of the family who retain the core principles of the company's founder of exceeding the service expectations of their customers.

With over 350 employees and led by a management team committed to reinvestment in the business.

Factsheet: Conventional logistics

Conventional logistics by Am Zehnhoff-Söns

Am Zehnhoff-Söns covers the field of conventional logistics with years of experience, the latest technology and the know-how of highly trained employees. You may rely on more than 100 years of experience in transport logistics and look forward to a flexible and reliable cooperation.

Container meets conventional – everything from one source.

- + Container loading/unloading
- + Warehouse logistics
- + Picking
- + Value added service
- + Distribution
- + Individual design of storage concepts

Going all ways:

Our fleet

Am Zehnhoff-Söns offers a fleet of truck tractors (exclusively EURO VI) and chassis, among other things Tautliners, telescoping trailers (24 m.), open trailers and gooseneck trailers. As a successful international operating freight forwarder, we transport goods ranging from general cargo to full truck loads. Do you expect the highest standards and maximum efficiency? Then we are the right partner for you.

Fast & efficient:

Our handling logistics

Latest handling equipment combined with manoeuvrable and flexible clearing equipment – that is the formula for successful and innovative handling at Am Zehnhoff-Söns. These factors guarantee a fast and efficient workflow both on quay and on-board ship. In addition to traditional road transport, we organise inland waterway transport for bulk goods and dry bulk materials.

Overheight, overlength, overwidth?

Special transports

The more specialized, the better because your special loads are our everyday business. The contact to authorities, the organisation of transport security, the choice of the optimal transport route – already in the planning phase we set the course for a successful process. Implementation is no problem with our truck fleet, for which we have all necessary permits.

Space for the essential:

Warehouse logistics

At our locations in Bonn, Trier, Rheinbach and Bornheim we offer modern warehousing. Due to the use of recent equipment and an IT-based warehouse management system, which can be configured for specific projects, your goods are in good hands with us. Placement in and withdrawal from storage can be undertaken fast and flexibly with the help of our truck fleet.

Always flexible despite regularity – „Mosel Heavy Lift Liner Service“

With the „Mosel Heavy Lift Liner Service“ we offer you a regular inland waterway liner service for your project cargo on the Moselle and Rhine. Our new service combines the efficiency of a liner service with the flexibility of demand shipping.

Contact us and we will find the right solution for your requirements.
